

Founded in 2002, SABPA has become an influential 501(C)(3) nonprofit organization in Southern California. Over two decades, SABPA's contributions have bolstered SoCal's thriving biomedical and pharmaceutical sectors. Our expansive community, with over 4,000 members ranging from academic scholars and industry professionals to entrepreneurs in the region, forms a vibrant network actively driving forward scientific progress in the life science industry.

## Why Become a Sponsor

SABPA's San Diego chapter hosts two esteemed annual conferences: the Frontiers in Therapeutics and Diagnostics Forum (FTD Forum) and the San Diego Bio-Pharma Conference. These events draw over 1,000 participants annually, showcasing groundbreaking innovations, cutting-edge technologies, and industry advancements, hosting renowned experts from academia and industry as speakers, providing significant visibility for sponsors.

Beyond these conferences, SABPA organizes entrepreneurial symposiums, educational seminars, and career development workshops to further cultivate our professional community, providing additional opportunities for brand exposure and engagement.

As SABPA continues to foster industry collaboration, knowledge exchange and professional growth, we invite you to join our journey of advancing scientific understanding and industry growth.

By supporting SABPA, you align your brand with our robust network of 5,000+ members/subscribers, and contribute to an organization devoted to serving its members and the broader life science community. Your sponsorship will make a significant difference.
